Scor ADR CUSIP: 80917Q106
Record Date: June 1, 2007 Payable Date: June 21, 2007
EDS Cut-off Date: June 7, 2007

The Bank of New York acts as sole depository bank for Scor (CUSIP: 80917Q106) American Depository Receipt “ADR” program.

Scor has recently announced their cash dividend, which is subject to French withholding tax of 15% (favorable) or a French withholding tax of 25% (unfavorable). The exempt rate of 0% withholding tax may also be applied to Canadian Pension Funds.

In order to notify DTC participants of Scor’s upcoming cash dividend and the French Tax reclamation procedures, we have produced this official announcement based upon the following information.

Scor has announced a cash dividend distribution to record date holders of **June 1, 2007**. Participants can use DTC's Elective Dividend Service (EDS) function under Foreign Securities via the Participant Terminal System (*PTS*) to certify all or a portion of their position for cash at the favorable or unfavorable French withholding tax rate. The use of EDS as such is also referred to as the "Simplified Procedure."

Qualifying U.S. resident Individuals and Individual Retirement Accounts (“IRAs”) (**with the exception of Roth & Rollover IRAs**), U.S. Corporations, U.S. Regulated Investment Companies (RICS), U.S. Real Estate Investment Trusts (REITs), U.S. Real Estate Mortgage Investment Conduits (REMICs), U.S. Not for Profit Organizations, U.S. Pension Funds, Canadian resident Individuals and Canadian Corporations are entitled to the favorable treaty withholding tax rate of 15%, rather than the statutory 25% (unfavorable) rate. Qualified Canadian Pension Funds are entitled to the exempt withholding tax rate of 0%, rather than the statutory 25% (unfavorable) rate. Treaty benefits may be claimed at source through EDS or by refund using French Forms 5000 and 5001. See Appendix A (attached) for more information on using EDS for French issues. Canadian Mutual Funds are not eligible to use the simplified, “relief-at-source”, procedure.

Please note that income on stock loan and fails for this issue will be tracked at the 15% favorable treaty withholding rate. In the past, DTC has not tracked income on French stock loans and fails because of systems limitations in handling the various avoir fiscal entitlement rates. With the abolition of the French avoir fiscal imputation system on dividend distributions, DTC is now able to track income on stock loans and fails.

Any Participant submitting instructions through EDS shall, by doing so, indemnify DTC under DTC's Rule 6, which applies (among other things) to any loss, liability or expense sustained by DTC as a result of any act done in reliance upon the Participant's instruction or as a result of the inaccuracy of the information contained in the instruction, including reimbursement to the French authorities for the erroneous payment of dividends at a favorable withholding tax rate at source to participants. Therefore, participants are not required to use this procedure for their eligible customers.

Any Participant not wishing to indemnify DTC and hold it harmless will be paid at the unfavorable rate at source and must apply for treaty benefits on French Forms 5000 and 5001 for eligible beneficial owners. Please consult your tax advisor for guidance.

Deadlines and dates associated with the procedure for obtaining the favorable rate at source are as follows:

Record date	June 1, 2007
ADR Payment date	June 21, 2007
French Payment date	May 25, 2007
Dividend amount per ADR	EURO 0.080
EDS certification cut-off	June 7, 2007

Société Générale (French Agent) must be in receipt of lists and documentary evidence by July 3, 2007.

Please refer to Appendices B and F (attached) which provide the format and requirements for the beneficiary list and for details on submitting beneficial owner information via computer disk in ASCII (American Standard Code for Information Interchange) file format or Microsoft Excel format. If certification is not provided, the beneficiary will be excluded from the simplified procedure.

NOTE:

1) An ASCII or Microsoft Excel File is required when filing for 50 beneficiaries or more. If an electronic file is not supplied for filings of 50 beneficiaries or more, the filing will be rejected and the resulting chargeback will be processed on the DTC Participant's account.

2) The DTC Participant is reminded that the EDS process is for the simplified tax relief of U.S. and Canadian residents ONLY. Only the following beneficiaries are entitled to the Simplified procedure:

- U.S. Resident Individuals & Individual Retirement Accounts (**excluding Roth & Rollover IRAs**)

2. Under Rule 20, any administrative costs incurred by DTC as a result of a Participant's incorrect filing may be charged to the responsible Participant.

Intermediary Relationships

Furthermore, any funds erroneously received shall be immediately returned to The Bank of New York, including any penalties and/or interest.

Any **long-form** claim sent directly to the French custodian bank mentioned in this Important Notice will be returned to the Participant.

Rules to be applied when creating an ADR file

1. Files may be either ASCII (plain text), or Excel files indistinctly. The choice is completely at the discretion of the user. However, the Excel format is likely to be easier for the user to create and manipulate.
2. The order of fields (columns) must be strictly respected in both ASCII and Excel files, as specified in the document describing the structure (ADR_File_Example).
3. All the fields (columns) must have data in every line. All data is mandatory and cannot be omitted.
4. Numeric values in both ASCII and Excel files should not contain any commas, semicolons, or blanks.
5. The DUE DATE field must have the form DDMMYYYY (e.g. 25052007 for May 25, 2007). It is considered to be a text value, and not an integer number. Consequently, a number or date format in the Excel file should not be applied to this column.
6. In ASCII (plain text) format, if the value of a field is shorter than the maximum length specified for it, the value must be padded with blanks at its right, to obtain the maximum length specified. For example, if the value of ADD1 is "800, Abbey Road" (15 characters), it should be padded with 17 blanks the end: "800, Abbey Road", in order to obtain the specified length of 32 characters. This rule does not apply to Excel files. Never use the tab key to obtain blanks!
7. In Excel format, only the maximum length of the fields should be respected. Thus, the value of ADR1 "800, Abbey Road" (15 characters) is valid; "1964, Penny Lane, Home of the Rising Sun" is not, as its length (40 characters) is greater than 32 – the maximum length allowed for this field.
8. In Excel format, the use of the semicolon (;) is prohibited.

The rules above should be scrupulously respected, in order to assure rapid and efficient integration of the provided files.
