The Proposed Rule Change is based upon guidance provided by OFAC to DTC.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”), 15 U.S.C. 78s(b)(1), notice is hereby given that on _____, DTC filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by DTC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

(i) The proposed rule changes being filed by The Depository Trust Company (“DTC”) consist of the following revisions of DTC’s Deposit Service and Custody Service procedures:

- In order to receive immediate credit in its securities account at DTC for a deposit of registered securities, a Participant will be required to certify to DTC that it has compared the parties identified on the deposited certificate (e.g., the issuer, the party in whose name the deposited security is registered and all assignees) against the list of targeted countries, Specifically Designated Nationals and other parties designated by the Office of Foreign Assets Control (“OFAC”) of the U.S. Department of the Treasury (the “OFAC list”) and that there were no “valid matches” identified by such comparison.

- With respect to securities and other financial instruments that are deposited pursuant to DTC’s Custody Service procedures, DTC will act on the instructions of the depositing Participant only after DTC itself has screened the parties on the deposit against the OFAC list and has identified no “valid matches”.

(ii) The proposed rule change is consistent with the requirements of the Securities Exchange Act of 1934, as amended (the “Exchange Act”) and the rules and regulations thereunder, because it will enhance DTC’s compliance with applicable laws, thereby reducing risks and associated costs to DTC and its Participants.

Introduction

(Deposits)

Overview

This section describes DTC's Deposits products. Each section includes an overview of a product and how it works, as well as a list of associated Participant Terminal System (PTS) functions you can use to access the product.

Overview

Warning! Although DTC makes every effort to provide you with timely information, you are primarily responsible for obtaining such information without relying on DTC. We recommend that you reconcile your records with DTC's before and after making a deposit and before and after any critical dates.

- **In order to receive immediate credit in its securities account at DTC for a deposit of registered securities, a Participant will be required to certify to DTC that it has compared the parties identified on the deposited certificate (e.g., the issuer, the party in whose name the deposited security is registered and all assignees) against the list of targeted countries, Specifically Designated Nationals and other parties designated by the Office of Foreign Assets Control (“OFAC”) of the U.S. Department of the Treasury (the “OFAC list”) and that there were no “valid matches” identified by such comparison.**
- **Additionally, in the case of a deposit of registered securities by a Participant located outside the United States, including a deposit by or for the benefit of a Participant accepted at a Depository Facility located outside the United States, the Participant will not receive immediate credit in its securities account. DTC will give credit for the deposit only after DTC itself has screened the parties on the deposit against the OFAC list and has identified no “valid matches”.**

About DTC's Deposits Service

DTC's Deposits service allows you to use a full range of safekeeping and processing services offered by the depository for various types of eligible securities. After receiving deposit instructions, DTC credits deposited securities to your general free account unless they are mandatory reorg deposits, restricted deposits, or full service legal deposits or if DTC's Interim Accounting procedures are in effect.

DTC's Deposits service offers the following products:

- Branch Deposits (Basic and Full Service)
- Reorganization (Reorg) Deposits
- Legal Deposits
- Deposit/Withdrawal at Custodian (DWAC)
- Restricted Deposits
- Custody
- Custody Reorg Deposits
- Continuous Net Settlement (CNS).

The Deposit Automation Management (DAM) system allows you to transmit details of a deposit via the PTS function DAMP before forwarding physical securities to DTC. DTC's Deposits staff reviews and edits this information, and, with high-value items, notifies you of any problems or other relevant information involving the securities. DAMP also allows you to consolidate deposits, research the status of a deposit, and pend a deposit for up to 10 days. See DAMP for more information.

Depositing Securities at DTC

This section briefly describes how deposits are processed by DTC. You can review information and account activity via various PTS functions, as explained in Tracking Deposits.

You can make deposits by using one of the following methods:

- DTC's Deposit Automation Management system (via the PTS function DAMP for legal and reorg deposits, and deposits made through DTC's Interface Department)
- The Branch Deposits system (via Computer-to-Computer Facility [CCF/CCF II] transmissions)
- The Restricted Deposits system (via the PTS function RDSP)
- The Fast Automated Securities Transfer (FAST) system (via the PTS function PDWC) .

Note- To expedite the deposit process, you should carefully follow the steps described in Preparing Certificates for Transfer before making a shipment to DTC.

You can submit certificates to DTC in one of four ways:

1. **Messenger delivery** to DTC's Central Delivery Department at 55 Water Street, Window 13 (for New York City participants)
2. **Overnight delivery** to the Interface Department (for participants outside New York City)
3. Through **DTC-affiliated depository facilities** located throughout North America
4. **Branch deposits.**

Once an acceptable deposit is made via PTS, DTC credits your general free account at the depository as follows:

- Same-day credit: Deposits made before noon eastern time at DTC's Central Delivery window, by DWAC deposit, or through a depository facility.
- Overnight credit: Deposits made between 2:00 p.m. and 5:30 p.m. eastern time at the Central Delivery Window or via the Interface Department.
- Same-day credit: Branch deposits.

Note- This processing schedule does not apply to certain products such as restricted deposits and mandatory reorg deposits. See those sections for details.

Reorg Deposits

The day after certificates are received as a reorg deposit, DTC sends the material to the agent with instructions to transfer or exchange the shares. The letter of transmittal generated by DTC also shows entitlements expected at DTC.

Appropriate payments and exchange of shares are usually made through DTC's Settlement area three days after the trade date.

Introduction

(DAMP)

Overview

The Deposit Automation Management (DAMP) function allows you to send deposit information to DTC for upcoming deposits, for which you can generate bar-coded deposit tickets that facilitate tracking and eliminate handwritten materials. Moreover, DAMP eliminates errors caused by the entry of incorrect CUSIP numbers, thereby reducing the number of rejected deposits and the attendant fees.

DTC reviews deposit information and notifies you of any problems that may affect processing by DTC's Reorganization Deposit Service. DTC also verifies that a redemption has been announced before accepting physical securities for that redemption. For mandatory reorganizations, DTC verifies that the security is eligible for its Mandatory Reorg Deposit Service. DTC notifies you of any errors so that you may make corrections before sending the physical securities to DTC. The DAMP function allows you to

- Consolidate multiple deposits through a bulk deposit feature that you can prearrange with DTC
- Place deposits in pend status for up to 10 business days
- Inquire about deposits entered today or during the last 60 business days
- Enter State of Israel bond deposits for safekeeping at DTC
- Deposit eligible debt or equity securities that are undergoing or have undergone (within the past three years) maturity, full call, partial calls, and mandatory reorganizations (Reorg Deposit service).

Note- A deposit can only be modified before DTC credits the position to your account. The DAMP function also

- Prints bar-coded deposit tickets either at your site or at DTC. You need a bar code printer for this service. If you use preprinted bar code labels supplied by DTC, you will not be able to reprint a ticket if it is lost or destroyed. In that case, you must delete the pending deposit and reenter it as a new deposit.
- Immediately updates the Automated Transfer Processing (ATP) system when deposits that have been sent to DTC are scanned into the DTC mainframe computer. The bar code is scanned at each stage of processing, generating an audit trail that you can monitor via the PTS function ART.
- Prints a unique deposit control number on each deposit ticket that makes it easier to track deposits. These deposit ID numbers are used for tracking inquiries, single ticket printing, and bin and shipment control list (SCL) processing.
- Allows you to request that images of your deposit be faxed or e-mailed to up to six recipients.

Note- The DAMP function also allows you to print deposit tickets for transactions entered via DTC's Computer-to-Computer Facility (CCF).

Facility Deposits

If you are located outside New York City, you can deposit certificates at a designated bank or corporation that provides you with same-day credit at DTC. The DAMP function allows you to enter the information about these deposits.

- **In the case of a deposit of registered securities by a Participant located outside the United States, including a deposit by or for the benefit of a Participant accepted at a Depository Facility located outside the United States, the Participant will not receive immediate credit in its securities account. DTC will give credit for the deposit only after DTC itself has screened the parties on the deposit against list of targeted countries, specifically Designated Nationals and other parties designated by the Office of Foreign Assets Control (“OFAC”) of the U.S. Department of the Treasury (the “OFAC list”) and has identified no “valid matches”.**

Deposit Reject Conditions

DTC will reject your deposit if:

- The specified CUSIP number is invalid, or is currently chilled or frozen for DTC activities
- The specified CUSIP number is not DTC eligible for deposit
- The participant number is currently frozen for DTC activities
- An invalid quantity (0 or alpha) is entered
- DTC's master tables are currently inactive, which happens infrequently when the tables containing CUSIP number information is being serviced (you will receive a message via PTS)
- An invalid deposit type is entered
- The specified deposit date is before today's date
- There is a book-entry TA for the deposit issue.

Note- A book-entry TA is a Federal Reserve issue identified by transfer agent number 400. These issues are rejected back to the originating participant because they should normally be forwarded to the Federal Reserve for deposit.

In addition, DTC will reject your *reorganization* deposit if:

- No denomination is specified
- The total of denomination is not equal to the specified quantity
- The deposit date is invalid
- The wrong coupon number is specified for bearer issues

Reorganization Deposits

The Reorg Deposit service allows you to deposit with DTC eligible debt or equity securities that are currently undergoing or have undergone maturity, full call, partial calls or mandatory reorganization.

For Redemptions/Maturity, DTC credits the maturing or called portion of the securities to your Reorganization (RRG) account and credits any uncalled portion to your general free account. DTC then submits the deposited securities to the Paying Agent for payment, credits redemption proceeds to your settlement account and deletes your RRG position in the deposited security.

For Mandatory Reorganizations, DTC credits your RRG account under the old security and credits your general free account for the new security entitlement. Cash proceeds are credited to your settlement account. For more information, refer to Mandatory Reorganizations .
