**SUBJECT:** Enhancement Request Task List  
IPO Tracking System

The attached document, *IPO Tracking System: Enhancement Request Task List*, has been redesigned and updated. The task list summarizes planned and completed enhancements to the IPO Tracking System.

The current task list is categorized by topic for ease of reference. Within each topic, completed items and/or items slated for completion in the near future appear first followed by pending items which require further research and discussion. Each item has a priority rating ranging from high (H) to low (L).

The Enhancement Request Task List is provided to Participants as an informational tool regarding the IPO issues being addressed by DTC and the progress that has been made thus far. The task list was compiled from requests from DTC's IPO Tracking System Advisory Group which assisted in the identification of the enhancements as well as the prioritization.

Questions may be directed to your Participant Services representative.
